

OAuth Apps Authorization Schedule

API User acknowledges that it is authorized to use only the OAuth Apps that are designated for its use according to the scope as provided below. *Use of the API in contravention of this OAuth Apps Authorization Schedule constitutes a breach of the API Agreement.*

1. **Provide a name for your designated OAuth App(s)** as you would like to appear to API User Studios (limit fifteen (15) characters including spaces):

Designated OAuth APP name: _____

2. **Select the API features needed for the scope** of your zingfit integration (*if you choose to enlarge your scope later, then a separate signed OAuths Apps Authorization Schedule will be required at that point*)

_____ **Performance Metrics** - delivers class enrollment data and ingests metrics data to be displayed in the customer profile;

_____ **Aggregator Bookings** - implement third-party consumer bookings.

_____ **Reporting Apps** - Contains PII data – data on customer profile info, purchases, and attendance. *API User must co-execute with the Client a separate "Personal Data API Access Form*

_____ **Independent Developer** - Permits development of customer-facing functionality including mobile apps (excludes kiosk development).

_____ **Other Partners** – for integrations for which the above OAuth scopes do not apply.
